# Transition Assessment for Students with Intellectual and Developmental Disabilities

A solid yellow horizontal bar is positioned below the title.

Produced by the Technical Assistance Partnership (TAP) for Transition at Cornell University.

*Last updated on June 4, 2025*

# Disclaimer

The resources shown are designed to provide helpful information. Resources are provided for instructional use purposes only and do not constitute New York State Education Department (NYSED) endorsement of any vendor, author, or other sources. To the best of our knowledge, the resources provided are true and complete.

# Introductions

- Name
- Educational Organization (EO)
- Position/Role

# Blueprint for Improved Results for Students with Disabilities

## Self-Advocacy

Students engage in self-advocacy and are involved in determining their own educational goals and plan.

## Family Partnership

Parents, and other family members, are engaged as meaningful partners in the special education process and the education of their child.

## Specially-Designed Instruction

Teachers design, provide, and assess the effectiveness of specially-designed instruction to provide students with disabilities with access to participate and progress in the general education curriculum.

## Research-Based Instruction

Teachers provide research-based instructional teaching and learning strategies and supports for students with disabilities.

## Multi-tiered Support

Schools provide multi-tiered systems of behavioral and academic support.

## Inclusive Activities

Schools provide high-quality inclusive programs and activities.

## Transition Support

Schools provide appropriate instruction for students with disabilities in career development and opportunities to participate in work-based learning.

# Meeting Norms

- Take care of your needs (water, food, restroom, etc.)
- Speak your truth—Use “I” statements
- Ask what you need to understand and contribute
- Listen with respect
- Push your growing edge
- Participate and struggle together
- Expect a lack of closure
- Respect each other’s needs

# Learning Objectives

## Participants will:

- Learn about research that supports transition assessment for students with intellectual and developmental disabilities.
- Identify and explore transition assessments for students with intellectual and developmental disabilities.
- Utilize transition assessment results for students with intellectual and developmental disabilities to inform transition planning and Individualized Education Program (IEP) development.

# Materials

- Transition Assessment Resources for Students with Intellectual and Developmental Disabilities
- Transition Planning Across the IEP
- National Technical Assistance Center on Transition: the Collaborative (NTACT:C) From Assessment to Practice: A Model for Teachers
- Transition Assessment Planning Form
- Pictorial Interest Inventory—Fillable
- Task Analysis Supplement
- Parent Transition Interview Form
- Parent Transition Interview—Overview and Tips
- Employment Support Indicators
- ChoiceMaker: Choosing Employment Goals Reproducibles
- Lilly Case Study
- Family Involvement in the Transition Assessment Process
- Transition IEP Mapping Tool—Lilly
- Transition IEP Mapping Tool Template

# What Research Tells Us

# **Why Is Transition Important for Students with Intellectual and Developmental Disabilities? (1 of 3)**

- Students with intellectual and developmental disabilities who receive services from outside agencies early in their secondary school education have better employment outcomes than those who apply later (Brigman, 2014).
- Family expectations of paid employment and becoming self-supporting predict employment outcomes for students with intellectual and developmental disabilities (Carter et al., 2012; Doren et al., 2012; Martinez et al., 2012; Simonsen & Neubert, 2012).

## **Why Is Transition Important for Students with Significant Disabilities? (2 of 3)**

- When families support goals for independent living and provide opportunities to interact with peers who also have career and independent living aspirations, the person is more likely to hold a job and live independently (Isakson et al., 2006).
- Having family members who are familiar with vocational supports needed, receive employment information from the school, and encourage and support engagement in social networks separate from the family also increases the likelihood of employment (Blustein et al., 2016; Eisenman, 2007).

# **Why Is Transition Important for Students with Intellectual and Developmental Disabilities? (3 of 3)**

- Students with intellectual and developmental disabilities who experience paid work, full or part-time, summer or annual, are more likely to be employed after high school (Blustein et al., 2016; Papay & Bambara, 2014).
- Teacher expectations for student employment can significantly impact the post-school employment outcomes for students with intellectual and developmental disabilities (Blustein et al., 2016; Carter et al., 2010).
- Individuals with higher self-care skills are more likely to be employed, attend postsecondary education, and live independently (Blustein et al., 2016; Carter et al., 2011; Carter et al., 2012; Foley et al., 2012)

# Overview of Transition Assessment

# Transition Assessment

- Is an ongoing process of collecting information on a student's strengths, interests, skills or aptitudes, preferences, and needs related to current demands and future career, educational, personal, and social environments.
- Provides a foundation for defining IEP goals and transition services and guides instructional decision-making.
- Results from initial assessments and should be the starting point for transition planning.
- Helps students with disabilities identify the skills needed to achieve post-school goals.
- Serves as a guide for students to make informed choices and take charge of their transition planning process.

# Transition Assessment Should Address Three Areas

## Education and Training

## Employment

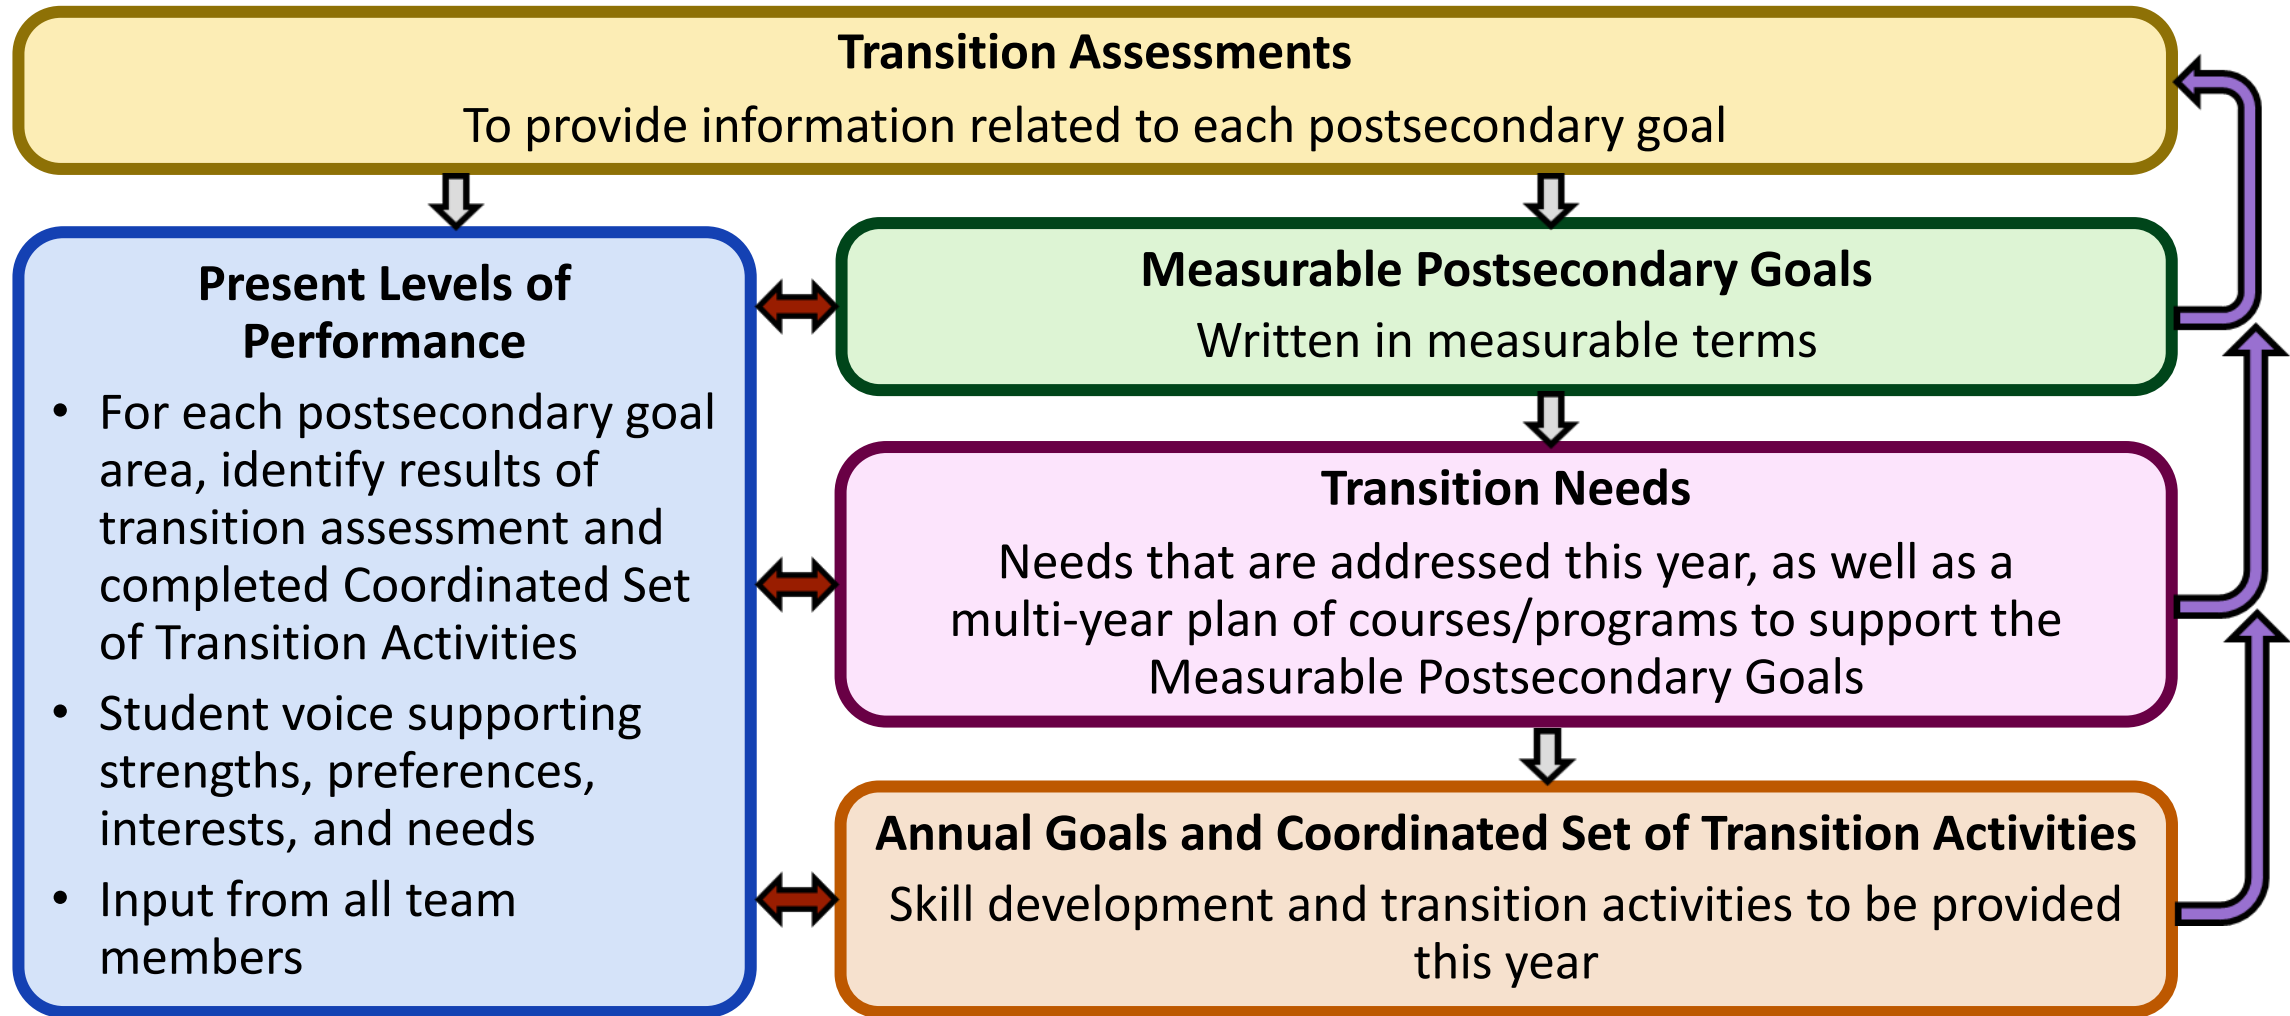

## Independent Living (if appropriate)

# Transition Planning Across the IEP

## Connected Transition Plan in the IEP

# Transition Assessment Planning Form

This planning form provides a fillable template that follows the student throughout the transition planning process. It will assist users to:

- Describe accurate present levels of performance, including the student's skills/strengths, preferences, interests, and needs related to postsecondary goals.
- Identify transition needs, services, and coordinated activities.
- Craft questions to pinpoint information and data needed by the team.
- Conduct, analyze, and summarize transition assessments.

# Transition Assessments for Education and Training

# Postsecondary Education and Experience (PEaE) Assessment

- Results of this assessment support the development of a clear plan to evaluate, target, and teach the required skills students need to apply for any PEaE program.
- The PEaE Assessment consists of 71 questions for IEP teams to complete.
- These questions were evaluated, revised, and confirmed important by PEaE directors.

The potential student currently participates in all mandatory meetings and planning sessions.

☐ Never

☐ Rarely

☐ Sometimes

☐ Most of the time

☐ Always

# Think College

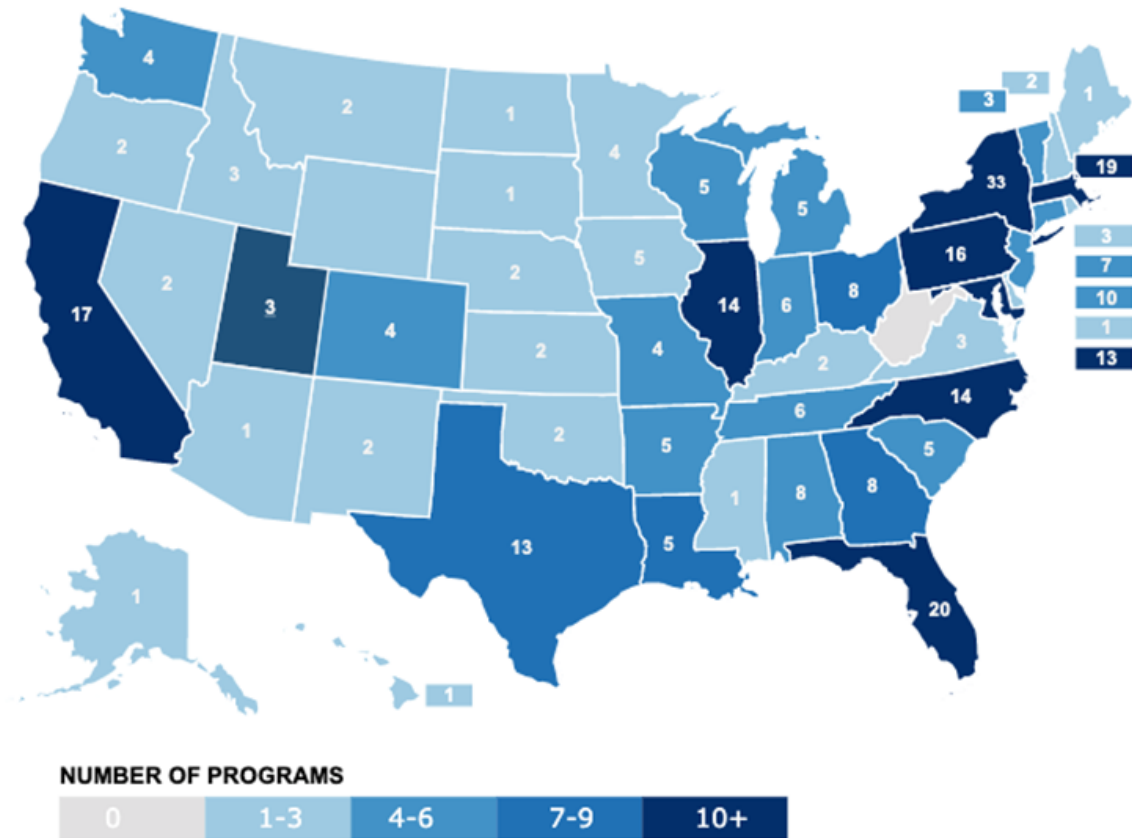

- A national organization dedicated to developing, expanding, and improving inclusive higher education options for people with an intellectual disability.
- Think College supports evidence-based and student-centered research and practice.

## Find the College that is right for you!

This directory includes information on [300](#) college programs for students with intellectual disability. You can search by program name, location, and other keywords. "Advanced Filters" offer more options to narrow your search.

Review these [Frequently Asked Questions](#) for answers to some general questions on college programs, how we gather the information in the directory, and how to use the features of College Search.

Once you have located colleges you are interested in, download the [How To Think College Guide to Conducting a College Search \[PDF\]](#). It provides you with the right questions to ask in order to get the answers you need about each program on your list. The How To guide is also [available in Spanish](#).

# Transition Assessments for Employment

# Picture-Based Career Interest Assessments

## Pictorial Interest Inventory

*Structured around eight different career fields*

Student name:

Today's Date:

Birth Date:

Age:

### How to Use This Inventory

Directions:

- Each page contains three pictures.
- Choose the picture from each group that shows the task you like most.
- Place an "X" under the picture of the task you choose.
- Choose only one from each page.

# Pictorial Interest Inventory Sample

A

B

C

# Picture Interest Career Survey (PICS) 3rd Edition

- This inventory is designed for people:
  - With limited familiarity with English
  - Who have a developmental or learning disability
  - With limited access to education
  - Who are chronically unemployed
- Uses the Realistic, Investigative, Artistic, Social, Enterprising, and Conventional (RIASEC) occupational coding system.
- Can be given to groups or individuals.
- Available in print or online. Cost: \$75 for 25 copies.

# Picture Interest Career Survey

Third Edition

A visual way to identify your career interests and start career exploration and planning

Robert P. Brady, EdD

Name \_\_\_\_\_

Date \_\_\_\_\_

The *Picture Interest Career Survey (PICS)* is a quick, visual way for you to identify work environments that interest you. You can then use your *PICS* results to explore careers that match those interests.

**Directions** Each of the 36 items consists of three pictures. Each picture shows an individual working. Decide which of the three pictures in each item is most interesting to you and then circle that picture. Work through all 36 items in chronological order, and circle only one picture in each item. There are no right or wrong answers.

**Example** In the sample item below are three pictures of individuals working. Picture A is a person cleaning a floor, picture B is a person arranging flowers, and picture C is a person delivering mail. If picture B interests you the most out of the three pictures, then circle it. The item number (1 in this sample) is printed to the left of picture A.

Turn the page to get started with Step 1.

# CareerOneStop—Videos in English and Spanish

The screenshot shows the CareerOneStop website interface. At the top, the logo features a stylized American flag icon next to the text "careeronestop" in blue and green. Below the logo is the tagline "your source for career exploration, training & jobs" and a note: "Sponsored by the U.S. Department of Labor. A proud partner of the americanjobcenter network." In the top right corner, there is a globe icon with the word "Español" and a search bar labeled "Search CareerOneStop" with a magnifying glass icon.

A dark blue navigation bar contains the following links with dropdown arrows: "Explore Careers", "Find Training", "Job Search", "Find Local Help", "Toolkit", and "Resources For". Below this is a large banner image with a blurred background of lights and a camera lens on the right. A white box on the left side of the banner is labeled "Career videos".

Below the banner, on the left, is a sidebar menu with the following items: "Video Library", "Career videos" (highlighted in blue), "Career videos in Spanish", "Career cluster / Industry videos", "Skill and ability videos", "Work option videos", "Tutorial videos", and "FAQs about videos".

To the right of the sidebar, there are icons for a printer, an email client, and social media links for Facebook, Twitter, and LinkedIn. The main content area has the heading "Explore our collection of videos on hundreds of different careers." followed by a paragraph: "Career videos are organized into 16 clusters, or related types of work. Select a category to view a list of videos related to that cluster. Videos include career details such as tasks, work settings, education needed, and more."

Below this text is a list of category buttons, each with a green dropdown arrow on the right:

- Agriculture and Natural Resources
- Architecture and Construction
- Arts and Communications
- Business and Management

# Transition Assessments for Independent Living

# Life Skills Checklist

- Personal life skills
- Emergency/Safety skills
- Nutrition/Dietary skills
- Money management/Financial planning skills
- Healthcare skills
- Sexual health skills
- Interpersonal/Social skills
- Kitchen skills
- Laundry skills
- Household skills
- Community skills

# Target Skill: Using the Bathroom

## Directions:

Describe each step, in order, for the behavior. Then, for each date on which the behavior is practiced, record the level of independence for each step of the behavior. Use the following symbols for your records:

**I**—Independent, Correct

**M**—Modeled, Gesture

**V**—Verbally Prompted

**P**—Physically Prompted

| Step | Description of Step             | Date: | Date: |
|------|---------------------------------|-------|-------|
| 1    | Goes to the bathroom            |       |       |
| 2    | Closes bathroom door            |       |       |
| 3    | Pulls down pants                |       |       |
| 4    | Pulls down underwear            |       |       |
| 5    | Sits on toilet                  |       |       |
| 6    | Voids in toilet                 |       |       |
| 7    | Reaches for toilet paper holder |       |       |
| 8    | Takes 5 pieces of toilet paper  |       |       |
| 9    | Wipes with toilet paper         |       |       |
| 10   | Drops paper in toilet           |       |       |
| 11   | Stands up                       |       |       |
| 12   | Pulls up underwear              |       |       |
| 13   | Pulls up pants                  |       |       |
| 14   | Flushes toilet                  |       |       |
| 15   | Washes hands                    |       |       |
| 16   | Exits bathroom                  |       |       |

# Diagnostic Adaptive Behavior Scale (DABS) and User's Manual

## Assesses:

- Conceptual Skills
  - Numbers, money, time, etc.
- Social Skills
  - Following rules, gullibility, avoiding victimization
- Practical Skills
  - Health care, transportation, safety

Cost: \$155 (25 forms + Manual)

# Supports Intensity Scale Children's Version (SIS-C)

## Assesses ages 5-16 years:

- Medical conditions and behaviors that require substantial levels of support
- School participation
- Health and safety
- Advocacy
- Home living

## Supports Intensity Scale Adult Version (SIS-A) for ages 16 years +:

- Uses similar measurement framework, rating system, and support needs domains

SIS-C Cost: \$50 for 25 forms

SIS-A Cost: \$55 for 25 forms

# Transition Assessments that Generalize Across Areas

# **Employability/Life Skills Assessment (ELSA)**

[ELSA For Professionals](#)

[ELSA for Families](#)

- Can be used with children, youth, and adults of any age, with or without a disability
- Forms for Professionals and Families
- Assesses 24 skills across eight categories, using a four-point rating scale
- Categories include self-help skills, work habits, task-related, work quantity, work quality, relations with supervisors and peers, and work attitudes
- Each version asks the same questions phrased to reflect each perspective
- Includes columns for multiple administrations, giving the ability to track responses over time

# Transition Rating Scale (TRS) 3.0

- Cost \$20 for a pack of 10 assessments.
- Transition assessment for learners with pervasive and long-term needs for support.
- Designed for educators and parents to complete.
- Assesses five areas:
  - Employment
  - Recreation and Leisure
  - Community Participation
  - Postsecondary Education
  - Future Outcome and/Goals Assessment

*This scale is a replacement for the discontinued ESTR-S.*

## Transition Rating Scale 3.0

Transition assessment for learners with pervasive and long-term needs for support.

### Learner Information

Name \_\_\_\_\_ Parent/Guardian \_\_\_\_\_

School/Agency \_\_\_\_\_ Primary Disability \_\_\_\_\_

Secondary Disability (dual diagnosis) \_\_\_\_\_

Grade \_\_\_\_\_ Birth Date \_\_\_\_\_ Age \_\_\_\_\_ Gender \_\_\_\_\_

### Evaluators

Name \_\_\_\_\_ Title \_\_\_\_\_

Name \_\_\_\_\_ Title \_\_\_\_\_

Date of Evaluation \_\_\_\_\_ Anticipated Date of Graduation \_\_\_\_\_

### Introduction

The goal of transition assessment is to gather information that accurately and comprehensively reflects the learner's present level of performance. The TRS 3.0 provides an efficient yet thorough means of identifying present levels of performance in each of five transition areas for learners with needing life-time supports.

The TRS 3.0 is designed to elicit programming information BOTH from parents/caregivers and educators. Important Note: To keep instrumental language consistent, we refer to "the learner". If parents or home caregivers complete the instrument, they can think of "the learner" as their "son/daughter". We have used this language within the scale.

### Directions for Using the TRS 2.0

This scale differs from the other TRS Scales in that descriptive information is provided about the learner's skills, level of participation, characteristics, status of planning and desired postschool outcomes.

The format of the TRS 3.0 consists of a checklist layout for indicating skills along with a space for descriptive narratives, designed to generate insight into the learner's present level of performance. It is essential for users to use the narrative section to record descriptions of the most significant needs for programming and/or support. Gathering information from parents is important when assessing students with with life-time needs for support. The authors have concluded that rating scales provide minimal information with these learners, rather descriptive information based on parental input is most useful.

### Electronic Version

An electronic version of the scale allows educators to complete the scale online. If users plan to employ the online TRS 3.0 (with its accompanying report generator), the paper version would only be used to gather information from parents/caregivers.

The online purchase is an assessment package that includes 1) a computer printout of a completed TRS 3.0(completed online) and 2) an assessment summary of the completed scale.

### Future Outcomes/Goals Assessment

Reviewing the learner's postschool outcomes, in each of five transition areas, is critical to transition planning. The authors have included a worksheet on the last two pages of this protocol for parents to indicate their interests and preferences. We suggest that this be completed yearly.

# TRS 3.0 Employment Sample

## Employment

### 1. The learner (or my son/daughter) demonstrates fine motor skills: *(check all that apply)*

- |   |   |   |
|---|---|---|
| <input type="checkbox"/> Grasping objects   | <input type="checkbox"/> Unwrapping objects                                 | <input type="checkbox"/> Pressing buttons/switches    |
| <input type="checkbox"/> Stacking objects   | <input type="checkbox"/> Turning objects                                    | <input type="checkbox"/> Putting two objects together |
| <input type="checkbox"/> Pushing objects  | <input type="checkbox"/> Transferring objects                               | <input type="checkbox"/> Opening containers           |
| <input type="checkbox"/> Stirring   | <input type="checkbox"/> Drawing/writing                                    | <input type="checkbox"/> Manipulating objects         |
| <input type="checkbox"/> Pouring  | <input type="checkbox"/> Sweeping (manually moving) objects into containers |   |
| <input type="checkbox"/> Pointing to objects/pictures, especially when information is requested |   |   |

### 2. The learner (or my son/daughter) demonstrates gross motor skills: *(check all that apply)*

- |   |  |   |
|---|--|---|
| <input type="checkbox"/> Sitting with supports                                    | <input type="checkbox"/> Scooting on floor | <input type="checkbox"/> Pushing up to a sitting position |
| <input type="checkbox"/> Sitting without supports                                 | <input type="checkbox"/> Rolling over      | <input type="checkbox"/> Walking                          |
| <input type="checkbox"/> Using stairs/managing small elevations such as door jams |  |   |

# TRS 3.0 Home Living Sample

## Home Living

### 1. The learner (or my son/daughter) cares for personal toileting needs: *(check all that apply)*

- |   |   |
|---|---|
| <input type="checkbox"/> Asks to use toilet                                       | <input type="checkbox"/> Indicates when wet or soiled               |
| <input type="checkbox"/> Diapering required—learner cooperates with process       | <input type="checkbox"/> Diapering required—learner resists process |
| <input type="checkbox"/> Uses toilet independently (and appropriately)            |   |
| <input type="checkbox"/> Uses toilet with assistance - Describe assistance: _____ |   |

### 2. The learner (or my son/daughter) demonstrates hygiene and grooming skills: *(check the level of participation)*

- |   |                            |
|---|----------------------------|
| <input type="checkbox"/> Completes grooming tasks without assistance  | Please list: _____         |
| <input type="checkbox"/> Completes grooming tasks with assistance   | Describe assistance: _____ |
| <input type="checkbox"/> Cooperates (without resistance) in hygiene tasks (washing hands & face, brushing teeth, bathing) |                            |
| <input type="checkbox"/> Resists during hygiene tasks completed by others (washing hands & face, brushing teeth, bathing) |                            |

# Parent Transition Interview

Parents and caregivers are integral to establishing a vision for the student's future. A structured transition interview or survey provides a way to gather input from them related to:

- Their hopes and dreams for the student's future
- Any concerns for the future
- How they see the student interacting within the home environment and the community
- Information about the student's strengths, preferences, interests, and needs

# Personal Preference Indicators

- Interview format
- Designed for student's family members, friends, or professionals who know student well enough to provide information
- Free
- Available in English and Spanish
- Assesses likes, dislikes, social indicators, choices, health, body clock, and future

# Personal Preference Indicator Sample Items

## FAVORITES

Individual Indicators

*What are the person's favorites? Do you know why? How can you tell? Any other things?*

- foods
- games
- music/sounds
- smells
- friends
- topics/objects
- activities/place to go
- being alone/with others
- TV show
- animals
- color
- clothes

*Who are the person's favorite people? Do you know why? How can you tell?*

*What are the person's favorite things about himself or herself?*

# Transition Planning Inventory (TPI)-3 Modified Form

**For Students With Autism or Other  
Significant Support Needs**

Cost: \$41.00 (25 forms)

Assesses postsecondary areas of:

- Employment type
- Learning options
- Living situation
- Leisure activities
- Health

# Sample TPI-3 Modified Items

# Life Vision—The Ride Ahead

- A tool developed collaboratively by the teams at The Ride Ahead documentary film and the LifeCourse Nexus.
- It uses the LifeCourse framework along with examples from the film to help transition-aged youth and young adults think about a more specific vision for their future across six Life Domains:
  - Daily Life & Employment
  - Community Living
  - Social & Spirituality
  - Healthy Living
  - Advocacy & Engagement
  - Safety & Security.

# Functional Vocational Assessment

# What Is a Functional Vocational Assessment?

- Functional vocational evaluation is an ongoing process that identifies a student's career interests, work-related aptitudes and skills, and need for training.
- In New York State (NYS), it is an assessment to determine a student's strengths, abilities, and needs in an actual or simulated work setting or in real work sample experiences.

# Employment Support Indicators

# **Situational Tool for Exploring Possibilities (STEP)**

STEP

- Template for recording information gathered during a situational assessment with the student.
- Student performance is considered and documented in skill areas based on observation.
- Skill areas include:
  - General Skills
  - Time Management
  - Interpersonal Skills
  - Stress Management
  - Initiative and Motivation
  - Problem Solving Skills
  - Organizational Skills and Productivity

# Self-Directed Employment

- Curriculum-based assessments including:
  - Making choices
  - Exploring choices
  - Testing choices
  - Final choices
  - Job matching skills
  - On the job assessments
- Includes a picture bank

Cost: Free

Skills I need to improve: Write a Y in the box for each skill you can improve.

Y

Y

Y

Y

$$\frac{\text{Y's: } 4}{\text{Skills } 5} = .80 \times 100 = 80\% \text{ Percentage of skills matches}$$

## Self-Directed Employment— Situational Assessment

Name: Pat Sample Jobsite: Carla's Date: June 25, 2002

If employed, check what's here and determine the match. If unemployed, check the boxes for the items that you want in your next job.

### Characteristics I like

|   |   |    |   |    |   |   |
|---|---|----|---|----|---|---|
| S | M | Tu | W | Th | F | S |

Matches:  $\frac{5}{10} = .50 \times 100 = 50\%$  Percentage of characteristics matches

### Tasks I like

Matches:  $\frac{3}{5} = .60 \times 100 = 60\%$  Percentage of tasks matches

# Self-Directed Employment— My Employment Plan

# How to Use Transition Assessment Results

# Case Study—Lilly

- Lilly is an ungraded 20-year-old student with multiple disabilities who lives at home with her parents. Lilly is educated primarily in a special class with other peers who have high support needs.
- She participated in one transition assessment this school year:
  - Pictorial Career Interest Survey
- Lilly's parents also completed two transition assessments this year:
  - Personal Preference Indicators
  - Parent Transition Survey/Interview
- Lilly's teachers have completed task analyses and performance logs related to her work-based learning (WBL) experiences.

# **Lilly's Case Study: Using Transition Assessment Results (1 of 5)**

## **When developing:**

# Lilly's Personal Preference Indicators

## SOCIAL Socialization Indicators

*How does the person communicate on his/her own?* Head turns and humming or grunting sounds

*Does the person have a nickname? If so, what is it?* Yes, we call her Lil

*How accurately does the person relate information to you and to others?* She can make choices but not speak

*Does the person have a sense of humor?* Yes! She makes noises whenever her brother is being funny

*How does the person show affection?* She turns her head towards the person and makes humming sounds

*Does the person require excessive feedback and/or direction?* Lilly needs hand-over-hand assistance

*How would you describe the person's relationship with his/her peers?* Lilly loves to be around peers

*Does the person request to be with or visit someone—relative, friend, etc.?* She likes to be around family and friends

*Does the person have a concept about being cautious with strangers?* Yes, she looks uncomfortable with strangers

*Does the person respond to facial expressions? Which ones? How?* Sometimes, she hums when we are laughing

*Does the person use facial expressions to communicate? Which ones? What do they mean?* Not really

# Parent Transition Survey/Interview

Completed by Lilly's Parents

## Parent/Guardian Questions

① What do you see as *(student's name)* greatest strengths?

Lilly tells us her wants/needs through head turns and humming or grunting sounds.

② What skills would you like to see *(student's name)* improve or learn over the next year?

We would like Lilly to increase her ability to use a head switch for communication.

③ What goals would you like *(student's name)* to pursue?

We would like Lilly to attend a day program and volunteer or work in the community.

# Lilly's Transition Assessment Information

In December 20XX, Lilly took the Pictorial Interest Inventory. In January 20XX, Lilly's parents completed the Personal Preference Indicators survey and a parent survey/interview.

- Lilly expressed interest in food services and retail.
- Lilly enjoys music and looking at window displays at the mall. She also likes to be in the kitchen while her parents cook dinner.
- Lilly enjoys being around people, especially her family and caregivers.
- Her parents would like to see her increase her use of functional communication by incorporating a head switch, or similar communication device.
- They would like Lilly to volunteer or work in the community in addition to attending a day program.

# Lilly's Academic Achievement, Functional Performance, and Learning Characteristics

- Levels of knowledge and development in subject and skills and information:
  - Lilly requires intensive supports to access content and activities within the school. She receives specially designed instruction (SDI) with intensive modifications and accommodations.
- Student strengths, preferences, and interests:
  - She likes listening to music and has expressed interest in food services and retail.
  - She can communicate preferences and interests with gestures and/or eye contact.
  - At home, Lilly likes to help during meal preparation.
  - Lilly's parents report that she enjoys looking at window displays in a busy mall.

# Lilly's Academic Achievement, Functional Performance, and Learning Characteristics (continued)

- Academic, developmental, and functional needs of the student:
  - Limitation with motor skills and requires hand-over-hand assistance for all activities.
  - Instruction and support on increasing the use of a head-activated switch with consistency.
  - Parents would like for Lilly to continue to work on her functional reading skills.

# Lilly's Social Development

- The degree and quality of the student's relationships with peers and adults; feelings about self and social adjustment to school and community environments:
  - Lilly enjoys group activities but has difficulty adjusting quickly to different environments.
  - She responds well to adults/school staff that she knows and appears uncomfortable with initial interactions with strangers in the community.
- Student strengths:
  - Lilly communicates her likes by turning her head toward a preferred activity or humming. She communicates dislikes by turning her head away from an activity or grunting.
  - At her WBL site, Lilly was able to direct customers of the Sip-Em school-based enterprise to fill out order forms using a head switch with pre-recorded responses on three occasions with verbal prompts.

# Lilly's Social Development (continued)

- Social development needs of the student that are of concern to the parent:
  - Lilly needs to increase her functional communication skills as indicated by structured teacher observations.
  - Lilly needs to practice self-determination skills by making choices on preferred activities/settings.
  - Lilly needs to continue to improve her ability to complete job-related tasks with minimal prompting.
  - Parents expressed a concern about balancing Lilly's preference for being around people and her need for downtime, due to her physical and medical needs. They would like to see her continue to work on using her head switch.

# Lilly's Physical Development

- The degree and quality of the student's motor and sensory development, health, vitality, and physical skills pertain to the learning process:
  - Lilly relies on help from others to move her electric wheelchair with hand-over-hand support, especially when she is fatigued; and to place her in a chair, a stander, or on a mat for all activities.
  - She has limited fine motor skills requiring hand-over-hand assistance for all activities.
  - Due to Lilly's medical needs, she demonstrates limited stamina.

# Lilly's Physical Development (continued)

- Student strengths:
  - Lilly can use head gestures to communicate and is receptive to hand-over-hand assistance to participate in classroom/vocational activities.
- Physical development needs of the student:
  - Lilly needs support moving from one activity to the next and requires a two-person lift or a mechanical device for all transfers.
  - She requires a schedule that accommodates periods of alertness, e.g., mid-morning.
  - Physical needs and self-care supports limit her ability to participate in numerous WBL experiences.
  - Lilly's parents want to ensure that her work experience at the Sip-Em coffee shop is meeting her physical needs and that Lilly is receiving enough downtime during the day.

# Lilly's Management Needs

- The nature and degree to which environmental, human, or material resources are needed to address needs identified on previous slides.
  - **Environmental Modifications**—Lilly needs:
    - Adaptive equipment for transfers
    - Adaptive equipment for communication
    - Breaks to support stamina throughout the day
  - **Human Resources**—Lilly needs:
    - Nursing for medical needs
    - Adult support for mobility
    - Adult support to access the curriculum and safely travel between classes
  - **Material Resources**—Lilly needs:
    - Access to visual cues for attention
    - Instructional material in alternative formats

# Case Study 1: Using Transition Assessment Results (2 of 5)

## When developing:

Present Levels of Performance

**Measurable Postsecondary  
Goals**

Transition Needs (including  
Courses of Study)

Annual Goals Related to  
Transition Service Needs

Coordinated Set of Transition  
Activities

# Measurable Postsecondary Goals

Long-term goals for living, working, and learning as an adult

- Education/Training
- Employment
- Independent Living (when appropriate)
  - Independent Living Skills are required when a student is taught to alternate achievement standards.

# Lilly's Measurable Postsecondary Goals

- **Education/Training**

- After exiting high school, Lilly will attend a day habilitation program a few days per week with individuals of similar age and needs, to maintain and improve communication and self-care skills.

- **Employment**

- After high school, given intensive support from a job coach, Lilly will obtain part-time employment or a volunteer position in a setting she enjoys (e.g., the mall, a coffee shop, a restaurant, or public music venue).

- **Independent Living**

- After high school, Lilly will continue to live at home with family and use a head switch system of communication so that she can effectively communicate her wants and needs.

# **Lilly's Case Study: Using Transition Assessment Results (3 of 5)**

## **When developing:**

Present Levels of Performance

Measurable Postsecondary  
Goals

**Transition Needs (including  
Courses of Study)**

Annual Goals Related to  
Transition Service Needs

Coordinated Set of Transition  
Activities

# Lilly's Transition Needs

- Consider the student's strengths, preferences, and interests as they relate to transition from school to post-school activities.
- Review transition assessment results to identify needs and create annual transition goals, activities, and services based on the results.

What transition needs are identified through Lilly's transition assessment results?

# Lilly's Courses of Study

Based on Lilly's assessment results and interests, Lilly will receive SDI in a modified general education curriculum that includes skill development in the following areas:

- Life Skills
- Functional Finance
- Modified Health
- Music Appreciation

In addition, Lilly will be working toward the achievement of the Career Development and Occupational Studies (CDOS) learning standards to support the Skills and Achievement Commencement Credential which includes participating in a supervised work experience.

# **Lilly's Case Study: Using Transition Assessment Results (4 of 5)**

## **When developing:**

Present Levels of Performance

Measurable Postsecondary  
Goals

Transition Needs (including  
Courses of Study)

**Annual Goals Related to  
Transition Service Needs**

Coordinated Set of Transition  
Activities

# Lilly's Postsecondary Goal: Education and Training

**Postsecondary Education and Training Goal**—After exiting high school, Lilly will attend a day habilitation program a few days per week with individuals of similar age and needs, to maintain and improve communication and self-care skills.

**Transition Need**—Lilly needs to continue to improve her communication and self-care skills.

# Lilly's Annual Goal to Support Education/Training

**Annual Goal:** Given direct instruction on utilizing a head switch for communication, Lilly will independently (without teacher prompting) actively respond in classroom activities with 70% accuracy as measured by teacher rubrics.

- Criteria: 70% accuracy over the course of 4 weeks
- Method: Teacher rubric
- Schedule: Weekly

Benchmark 1: Lilly will utilize a head switch to answer yes and no questions with moderate prompting (3–5 physical prompts).

Benchmark 2: Lilly will utilize a head switch to answer yes and no questions with minimal prompting (1–2 physical prompts).

Benchmark 3: Lilly will answer a story elements question with moderate prompting (2–5 verbal prompts).

Benchmark 4: Lilly will answer a story elements question with minimal prompting (1–2 verbal prompts).

# Lilly's Postsecondary Goal: Employment

**Postsecondary employment goal**—After high school, given intensive support from a job coach, Lilly will obtain part-time employment or a volunteer position in a setting she enjoys (e.g., the mall, a coffee shop, restaurant, or public music venue).

**Transition need**—Lilly needs to continue to improve her ability to complete job-related tasks with minimal prompting.

# Lilly's Annual Goal to Support Employment

**Annual Goal:** Given explicit instruction, Lilly will direct customers with 75% accuracy.

- Criteria: 2 consecutive trials over 2 weeks
- Method: Structured teacher observation
- Schedule: Weekly

Short-term objective 1: Lilly will greet customers upon entering the coffee shop with minimal prompting (1–2 physical prompts).

Short-term objective 2: Lilly will direct customers to complete an order form with minimal prompting (1–2 physical prompts).

Short-term objective 3: Lilly will direct customers to place their completed order form in the order basket (1–2 physical prompts).

# Lilly's Postsecondary Goal: Independent Living

**Postsecondary independent living goal**—After high school, Lilly will continue to live at home with family and use a head switch system of communication so that she can effectively communicate her wants and needs.

**Transition need**—Lilly needs to continue to develop her self-determination skills of choice-making.

# Lilly's Annual Goal to Support Independent Living

**Annual goal:** Given four options for leisure activities to participate in during the school day, Lilly will identify her likes and dislikes by using her communication device.

- Criteria: In 3 out of 4 trials, over 4 weeks
- Method: Recorded observations
- Schedule: Weekly

Benchmark 1: By November, Lilly will express a like or dislike for one leisure activity by using her communication device.

Benchmark 2: By February, Lilly will express a like or dislike for two leisure activities by using her communication device.

Benchmark 3: By April, Lilly will express a like or dislike for three leisure activities by using her communication device.
